- **COVID-19 vaccines can now be administered at the same time as other vaccines.**
  - Previously, it was recommended that COVID-19 vaccines be administered alone, with a minimum interval of 14 days before or after administration of any other vaccine. This recommendation was made out of an abundance of caution and has been removed based on substantial data regarding the safety of the COVID-19 vaccines currently authorized by the FDA.
  - A COVID-19 vaccine will provide similar immunity & side effects when administered alone or with other vaccines. Other vaccines can be given within the 14-day window, or on the same day as a COVID-19 vaccine.
- **Governor DeWine announced Statewide Drawings for youth and adults as an extra incentive to get the COVID-19 vaccine, in addition to the health benefits.**
  - All those 12-17 who have been vaccinated can enter a drawing for a full, 4-year scholarship to a State of Ohio university, including tuition, room-and-board, & books. Tonight, the first winner will be announced.
  - For those 18 and older, a separate "Ohio Vax-a-Million" drawing will take place for adults who have received at least their first dose of the vaccine to win 1 million dollars. Five winners will be chosen, beginning tonight.
  - To be eligible to be announced as a winner on a given Wednesday, Ohio residents must opt-in by the end of day the Sunday immediately prior. Official rules, FAQs, and a list of entry end dates, drawing dates, announcement dates, and a list of TV stations that will air the announcement, is available at [ohiovoxamillion.com](https://ohiovoxamillion.com). The final announcement will take place on Wednesday, June 23.
  - Ohioans who would like to enter the drawings must opt-in by visiting [ohiovoxamillion.com](https://ohiovoxamillion.com) or by calling the ODH Call Center at 1-833-4-ASK-ODH (1-833-427-5634) between 9 a.m. and 8 p.m. daily.
